

FREE VACCINES FOR LIFE ENROLLMENT FORM

- 1) Client pays an enrollment fee of \$129 for each pet they wish to enroll in the Free Vaccines for Life Program (FreeVax).
- 2) The enrollment fee is not refundable under any circumstances. (i.e. – moving, changing veterinary clinics, death of pet, adopting pet to another family or any other circumstance).
- 3) The enrollment fee is for one pet only and is not transferable to another pet or another owner under any circumstance.
- 4) Enrolled adult pets will continue to receive vaccines listed on this form free of charge for the rest of the pet's life as long as the pet has an annual wellness exam (AWE) within 30 days of when the AWE is due, even if no vaccines are due. You have 30 days prior to and after the due date of the AWE. Lake Stevens Animal Hospital (LSAH) at a minimum mails two postcards, reminding when your pet's AWE is due. You can enroll in email or text reminders as well. Clients are responsible for keeping LSAH informed of changes in mailing address, email address, and/or phone numbers to ensure you receive the reminders.
- 5) Enrolled puppies or kittens will continue to receive vaccines listed on this form free of charge for the rest of the pet's life as long as the puppy or kitten has a technician exam (tech eval) every 3-4 weeks after the initial AWE, for the duration of the boosted vaccines.
- 6) AWE done at other vet clinics/hospitals will not count toward this program.
- 7) If the pet does not come in for the AWE within 30 days of the due date, then the pet is dropped from the program. If puppy or kitten does not come in for the tech eval within 3-4 weeks after the initial AWE and/or the first tech eval, then the puppy/kitten is dropped from the program. The client can re-enroll the pet by paying a re-enrollment fee of \$238, if the program is still offered by LSAH.
- 8) LSAH has the right to stop enrolling new pets, or re-enrolling pets that do not come in for AWE. However, once a pet is enrolled and comes in for an AWE, that pet will receive Free Vaccines for Life.
- 9) At the AWE, the veterinarian will discuss the vaccines appropriate for the age and lifestyle of that pet and recommend a vaccination program. The client has the right to refuse vaccines or request additional vaccines that are listed on this form. Any vaccine not listed on this form is not included in the FreeVax and will be charged upon administration.
- 10) All Dr. exam fees, tech exam fees, lab fees, medications, heartworm & flea prevention, and all other vet charges are not included in this program. You are responsible for the AWE fee, tech eval fee and all other charges the day your pet is getting his/her FreeVax. Client must pay for the AWE or tech eval fee in order for the pet to receive the free vaccines. Only the vaccines that are listed on this form are free.
- 11) The FreeVax can be combined with the LSAH free new puppy/new kitten AWE coupons given out by EAS, NOAH, Save-A-Mutt, & Purrfect Pals. No other coupons or discounts apply to this program.
- 12) If you choose not to enroll in the FreeVax program at the time of your pet's AWE, then you have 30 days after the AWE to come back in and enroll in the program. A tech eval or Dr. recheck fee will apply.
- 13) Vaccines included in the FreeVax are:

Dogs

- DHPP
- Lepto
- Bordetella
- Rabies

Cats

- FVRCP
- FELV
- Rabies

I understand the terms of the FreeVax and wish to enroll the following pet:

Pet Name: _____ DOB: _____ Microchip: _____

Description: _____ Date: _____

Client Name: _____ Client Signature: _____
